

## Pupil premium strategy statement Newfield School 2023-2024

This statement details our school's use of pupil premium funding to help improve the attainment of our disadvantaged pupils.

It outlines our pupil premium strategy, how we intend to spend the funding in this academic year and the outcomes for disadvantaged pupils last academic year.

### School overview

Detail	Data
Number of pupils in school	230
Proportion (%) of pupil premium eligible pupils	35.6% 82 students
Academic year/years that our current pupil premium strategy plan covers ( <b>3 year plans are recommended – you must still publish an updated statement for each academic year</b> )	2023 -2025
Date this statement was published	December 2023
Date on which it will be reviewed	December 2024
Statement authorised by	Rachel Kay
Pupil premium lead	Jenny Riley
Governor	Sara Barr Frost

### Funding overview

Detail	Amount
Pupil premium funding allocation this academic year	£54,968 Indicative full year (subject to change due to increasing numbers) £85,000
Pupil premium funding carried forward from previous years	None
<b>Total budget for this academic year</b>	

# Part A: Pupil premium strategy plan

## Statement of intent

### Wider Context to school location.

The socio- economic context of our pupils means they live in an area of high social deprivation where adults:

- Have little or no qualifications,
- who are more likely to be out of work or have a very low income often in receipt of benefits and subsistence allowance,
- a high level of involuntary exclusion from the work place through lack of job opportunities or poor health,
- a high level of early mortality and disability with both physical and mental ill health
- Poor quality of housing usually in the rented sector however in some circumstance within easy reach of facilities and services being town/city centre based
- This also impacts on the more marginalised groups of our society, including those seeking asylum and migrants to Blackburn

Understanding the **socio-economic situation** of our intake ensures we provide *all* pupils with

- A robust curriculum which widens their horizons, addresses their mental health and wellbeing and responds to individual need.
- knowledge and skills that are meaningful to their life and journey into adulthood
- A clear staffing structure that allows for the extended work with families and engages hard to reach families with a nurturing approach.
- A clear and firm approach to attendance and expectations ensuring boundaries are set and dialogue is maintained
- A research-based approach to positive behaviour support that identifies triggers and antecedents before behaviour arises and aims to promote proactive strategies and enhance the quality of life for the individual.

### School Context

Our whole school vision is that all pupils, irrespective of their background or the challenges they face, make excellent progress against individual starting points, and achieve high attainment across the curriculum and individual outcomes contained within their EHCP.

Our guiding principle is 'Never do for a child what they can, could or should do for themselves.'

Within this Newfield seeks equity for all, so that no child is disadvantaged regardless of being in receipt of Pupil Premium. Within our cohort that attract Pupil Premium, we can show that the majority do not present as low attainers in relation to their peers.

At the heart of our approach is *quality first adaptive teaching* focussed on areas where assessment has identified that our pupils require it most – key barriers to learning. This includes specific targeted support

based on robust diagnostic assessment of need, helping pupils to access a broad and balanced curriculum.

Although this strategy is focused on addressing the needs of disadvantaged pupils, *it should benefit all pupils in our school to reflect our holistic team around the child model.*

Funding is therefore also spent on whole-school approaches, such as high-quality teaching which is also seen to have a greater cost benefit. It is the intention that outcomes for non-disadvantaged pupils will be improved alongside progress for their disadvantaged peers.

### **Specific Context to Disadvantaged Pupils**

Whilst all of our pupils have a highly personalised curriculum focussed upon their own needs and barriers to learning, Pupil Premium is being used to ensure that these students have access to a specialist high staff to student group and operate individual timetables.

These students also benefit from access to communication, physical and sensory interventions, planned and delivered by experienced staff as outlined in the projected spending.

We will also provide disadvantaged pupils with specific support to develop independent life and social skills and continue to ensure that they have full access and entitlement to experiences which enrich their learning beyond the classroom to support cultural capital

Our strategy will be driven by the ongoing and changing needs and strengths of each young person, based on formal and informal assessments, not assumptions or labels. This will help us to ensure that we offer them the relevant skills and experience they require to be prepared for adulthood

We work alongside therapists and specialist teachers in full consultation with families to embrace a multi-disciplinary team around the child approach.

We then seek to equip staff with the attitudes, skills and knowledge to offer provision and experiences which maximises their chances of achieving the ambitious targets we set them.

All our students enter the school with levels of numeracy, reading and writing which are considerably below the national standard and therefore we believe that priority should be made to ensure the following objectives are met:

### **Communication and social interaction**

#### **Personal and Social Development including physical and emotional wellbeing**

#### **Behaviour, regulation and attendance to support engagement in learning**

All of the identified provision for pupils laid out within this plan is referenced against at least one of these criteria.

The amount of pupil premium grant will vary from year to year and will be enhanced from the total school funds available. This ensures that all of our children receive sustainable and consistent staffing expertise and targeted specialist support where needed.

## Challenges

This details the key challenges to achievement that we have identified among our disadvantaged pupils.

Challenge number	Detail of current challenge
1	<p>Through observations and conversations with pupils and their families, we find that our disadvantaged pupils generally have fewer opportunities to develop <b>cultural capital outside of school</b>, particularly alongside their peers.</p> <p>This means they need to have access to a wide range of experiences in relation to 'learning outside the classroom'</p> <p>Additionally, there is a real challenge to find suitable local provision for pupils when they leave school due to their complex needs.</p>
2	<p>Our assessments, observations and discussions with pupils and their families show that disadvantaged pupils are generally less likely to have opportunities to <b>make healthy choices, be physically active and access opportunities outdoors</b> and in the wider community</p>
3	<p>Our assessments, observations and discussions with pupils and their families show that disadvantaged pupils generally have greater challenges around <b>communicating and expressing their feelings and needs</b> than their peers, including non-verbal/limited language.</p> <p>This means our staff need access to highly qualified specialist training, and high- quality resources in order to promote the communication of our pupils in all areas of the curriculum.</p> <p>This also creates a priority focus on enabling pupils to develop their expressive and receptive communication via a number of appropriate means including augmentative technology.</p> <p>Co morbidity of complex needs results in associated challenges in our students having appropriate social interaction and regulation skills. Often students have learnt ways to get their needs met that suit them but are unhelpful.</p> <p>This means our staff need access to focused training, and high- quality resources in order to promote pupils' ability to develop regulation and engagement skills.</p>
4	<p>Many of our disadvantaged students have <b>highly complex needs</b> including physical disabilities, complex medical needs and possible deterioration in physical skills and/or health, including mental health</p> <p>This requires a high level of specialist support, equipment and staff expertise to access the most appropriate environment for learning.</p> <p>This co-morbidity of complex needs impacts ability to learn and access the curriculum.</p>
5	<p>Our assessments, observations and conversations with pupils and their families indicate that disadvantaged pupils often require <b>additional support to develop personal and independence skills</b>.</p> <p>Associated issues in relation to the <b>mental health and wellbeing</b> of CYP and family, including emotional dysregulation and challenging behaviours, has a significant impact of both the children and their families.</p> <p>In relation to Maslow hierarchy this means that many students are not naturally in a place to learn and engage without a high level of additional support.</p>

6	<p><u>Pupil Attendance and Parental Engagement in learning</u></p> <p>A lot of our parents face a range of challenges due to having a child with a specialist need. In some cases, our parents require support around understanding their child's disabilities, training in this area is of a priority for the school.</p> <p><b>Attendance:</b> Newfield pupils have a wide variety of complex medical/behavioural needs. This does affect the attendance of some of our pupils, however we still have extremely high expectations for attendance.</p> <p>We need to work proactively to ensure parental engagement and support for attendance due to parental concerns and familial issues, including advice from paediatricians regarding wellness to attend school.</p> <p><a href="https://www.educationendowmentfoundation.org.uk">Parental engagement   EEF (educationendowmentfoundation.org.uk)</a></p>
7	<p><b>Ongoing Challenge</b></p> <p><b>As the only special school within the authority for complex needs we experience a changing and wide range of demands to ensure staff are trained appropriately.</b></p> <p>School needs to continue to regularly evaluate and reflect upon appropriateness and effectiveness of provision for each individual pupil to ensure all educational, health and care needs are met.</p> <p>All pupils need a <i>personalised approach</i> to ensure each child is supported to make the very best progress possible. Our curriculum and timetable need to be flexible, and constantly reviewed to ensure the right mix of intensive interventions at a 1:1/2:1 level, small group work and whole class work.</p>

### Intended outcomes

This explains the outcomes we are aiming for **by the end of our current strategy plan**, and how we will measure whether they have been achieved.

Intended outcome – Adjusted from Last Year	Success criteria
<p><b>Core</b></p> <p>Disadvantaged pupils have access and engage fully in a broad and balanced holistic curriculum that meets their cognitive, physical, health, sensory and emotional needs</p> <p>Improved attainment for disadvantaged pupils across all areas of need</p>	<p>A range of learning and therapeutic interventions that support the development of pupils are implemented and evidence of progress to be tracked on Evidence for Learning.</p> <p>Targeted, evidence-based interventions are used to support pupils to make progress across the curriculum.</p> <p>Pupils have increased skills resources to support their 'readiness to learn</p> <p>Focused CPD ensures teachers and, where relevant, teaching assistants are equipped to meet the needs of the needs prominent amongst the cohort of learners eligible for the Pupil Premium Grant.</p>
<p><b>New</b></p> <p>Pupils access a range of opportunities to apply and enrich learning outside the classroom and develop their cultural capital</p>	<p>Pupils engage fully in a range of visits and experiences including residentials, accessing the community.</p> <p>Offer for extra -curricular activities increases</p>

<p><b>Core</b></p> <p>Disadvantaged pupils receive increased input with development of strategies and resources to support communication both in school and at home</p> <p>Pupils can use a range of communication systems to aid their understanding and to develop expressive communication skills.</p>	<p>Assessments and observations indicate significantly improved communication skills.</p> <p>Pupils can use a range of communication systems to aid their understanding and to develop expressive communication skills - Access to specialist interventions delivered by Speech and Language Therapy</p> <p>SALT advice informs targets on the EHCP, Annual Reviews. These are then reviewed and progress is evident through their achievement.</p> <p>Wellcom assessments for EYFS and primary completed for all students. All teachers trained in using assessments.</p>
<p><b>New</b></p> <p>Disadvantaged pupils have greater confidence and independence to help them engage more with the wider community and prepare for adulthood.</p> <p>This includes Increasing opportunities to develop independence both inside and outside of the family home</p>	<p>School improvement target and focused appraisal for all staff – measured via observations and progress in relation to EHCP targets</p> <p>Sustained high levels of well-being evidenced with qualitative data from all stakeholders. - Significant participation in enrichment activities.</p>
<p><b>Ongoing</b></p> <p>Parents are supported to understand and meet the needs of their children to extend knowledge and skills into the home</p> <p>Parents understand the importance of regular attendance</p>	<p>Increased parental engagement through parent support groups and support from Family Wellbeing Coordinators</p> <p>Training for parents focussing on specific communication and sensory interventions, such as Makaton, riding the rapids.</p> <p>Attendance % of disadvantaged pupils remains consistent with that of non- disadvantaged pupils.</p> <p>Increased attendance for identified pupils through a bespoke package of pastoral support.</p> <p>External support is accessed by a wide range of families through accurate and timely signposting.</p> <p>Targeted workshops are delivered to support parents with specific circumstances surrounding their role with their child</p>

## Focused Activity in this academic year

This details how we intend to spend our pupil premium funding **this academic year** to address the challenges listed above.

### Teaching (for example, CPD, recruitment and retention)

Budgeted cost: **£ 29,001**

Activity	Evidence that supports this approach	Challenge number(s) addressed
<p>Linked to SDP target</p> <p><b>To support school becoming attachment and trauma informed</b></p> <p>And current SIP target :</p> <p><b><i>Pupils engagement in effective learning is enhanced via explicit application of 3 tiered 'Regulate to Educate' principles</i></b></p> <p>Targeted <i>training</i> to support our 'Regulate to Educate' approach:</p> <p>Creation of TLR position to support enhanced Sensory Integration lifestyle. (£5,500)</p> <p>Training Lead Thrive Practitioner and 2 additional practitioners (£6,000)</p> <p>2 staff attend course 'When the adults change the child changes' (£250 total)</p> <p>2 staff attend and develop support for zones of regulation ( £500)</p> <p>Specific release time for Regulation Support Team to plan deliver and support sensory lifestyles – Tiered Approach (incl. TLR time and specialist</p>	<p>Research acknowledges when schools deliver attachment and trauma- based practice this supports the development of regulation and wellbeing</p> <p>This relates to the work of Bruce Perry and the neuro-sequential model (2008) as evidenced via Thrive Approach</p> <p>The Thrive Approach is being used successfully in schools, homes and other childcare settings throughout the UK and has been positively evaluated by a number of leading organisations: Evaluated by CELSI (Centre for Education Leadership &amp; School Improvement) for the Department of Health</p> <p><a href="#">The Thrive Approach to social and emotional wellbeing   The Thrive Approach</a></p> <p>By increasing capacity of Mental Health Support from the Pupil Premium Grant, we ensure that staff's understanding of relevant needs for those eligible for the PPG are met accurately.</p> <p>Early Intervention addressing mental well-being is crucial in being able to improve the lives of children, adolescents and adults who, when suffering from emotional pain or trauma that is left untreated, may go on to develop more serious mental health issues.</p>	<p>3,4,5</p>

<p>HLTA to support specific students) (1.5 days, £12,000)</p> <p>Staff released to attend LEHSS suite of training relating to Emotional Health and Wellbeing (3 HLTA's x6 hours £1,000).</p> <p>4 additional staff attend mental health first aid training ( £1,000)</p>		
<p><u>Communication and Interaction</u></p> <p>TLR additional release time to support total communication approach (£2,500).</p> <p>Makaton tutor trained and released to deliver sessions for staff and parents (£2,000 for course, £5,500 for release time).</p>	<p>The Communication Trust worked with the Better Communication Research Programme to develop the What Works database of evidenced interventions to support children's speech, language and communication, which is endorsed by the Royal College of Speech and Language Therapists:</p> <p><a href="#">What works database</a></p> <p>Supporting our total communication approach From training needs analysis and appraisal feedback we have identified that staff need training in Makaton as skills have been lost with staff changes</p> <p>Summer Term Update Following audit and referrals there will be an allocation to support the purchase of AAC for our pre- formal learners – supporting total communication and pupil voice</p>	3,4

**Targeted academic support (for example, tutoring, one-to-one support structured interventions)**

Budgeted cost: £ 28,000

Activity	Evidence that supports this approach	Challenge number(s) addressed
<p>Specialist HLTA's providing interventions based on data analysis from various sources linked to assessed needs (£28,000)</p>	<p>Teaching Assistant taught interventions have been seen to have a positive impact on the progress of pupils over time (+4 months). Schools should carefully consider how teaching assistants are used to support learners from disadvantaged backgrounds...additional care should be given to how teachers respond to the deployment of teaching assistants and who they are supporting, particularly for previously low attaining or disadvantaged pupils (EEF, 2021).</p>	3,4,7

CPOMS/IRIS/Wellcom /EFL tracking	<p>4 HLTA's will be deployed each to support individual or small groups for focussed intervention.</p> <p>1: Sensory integration and body awareness (0.5 day)  2: Literacy intervention (1 day)  3: Maths intervention (0.5 day)  4: Additional support/outreach (1.5 days)</p> <p>This ensures the intervention is delivered by somebody with comprehensive understanding and appropriate training, to meet the pupil's specific needs and targets. This will be based on on-going analysis of data.</p> <p><a href="#">Small group tuition   Teaching and Learning Toolkit   EEF</a></p>	
Embed <b>total communication approach</b> supporting communication champions in each class	<p>Speech &amp; Language support &amp; interventions, both group and individual Approximately 70% of those eligible for the PPG have a prominent Communication &amp; Interaction need identified through their Education, Health &amp; Care Plan (EHCP).</p> <p>Identified pupils are provided with therapeutic communication interventions and support. Class teams develop bespoke communication strategies as part of timetabled input. Parents and carers are supported in implementing bespoke communication strategies within the home.</p> <p><a href="#">Oral language interventions   EEF (educationendowmentfoundation.org.uk)</a></p>	1, 2, 3

### Wider strategies (for example, related to attendance, behaviour, wellbeing)

Budgeted cost: £ 25,445

Activity	Evidence that supports this approach	C
To resource cost two therapeutic classroom bases and release time for staff (phased approach to roll out). (£500 for release, £4,000)	<p>From analysis of incident data via CPOMS and IRIS we have identified groups of students needing a more embedded sensory lifestyle provision</p> <p><a href="#">Therapeutic Classrooms - TPC Therapy</a></p> <p>Summer Term Update  We will carry out further research to consider how to develop an adapted curriculum  One classroom in place well established  Second space – in process of being developed</p>	3,7
Tiered training in Sensory Integration to support needs of students with SI within new classrooms:	<p>From experience impact of training is more effective by a tiered approach where knowledge and skills can be cascaded down to impact more 'on the ground' – this applies the principle of adult learning.</p> <p><a href="#">The OSF (On-the-Job, Social, Formal) Ratio - Training Industry</a>  <a href="#">Peer tutoring   EEF (educationendowmentfoundation.org.uk)</a></p>	3,4,5

<p>Specific Training for teachers and HLTA's: (£4000)</p> <ul style="list-style-type: none"> <li>- Regulation support team</li> <li>- Sensory champions</li> <li>- Whole school training</li> </ul> <p>Subscription to SEI platform (£195 per annum).</p>	<p><a href="https://www.sensoryintegrationeducation.com/bundles/sie-unlimited-annual-pass#pricing">https://www.sensoryintegrationeducation.com/bundles/sie-unlimited-annual-pass#pricing</a></p> <p>Identified in proactive strategies to behaviour on regulation support plans or sensory diets</p> <p>Where additional internal support or commissioned external support is identified for those who require advice, assessment and therapeutic programmes in relation to their sensory needs, sensory input is timetabled as part of a personalised timetable.</p>	
<p>To create bespoke sensory regulation zones across school with appropriate resources to support pupil's sensory lifestyle. (Teacher to lead – £7,000 on resources). Developing Sensory Circuits</p> <p>£6,750 ( reallocated)</p>	<p>NICE guidelines recognise the significant sensory difficulties in children and adults with autistic spectrum disorder. 42% of pupils have ASC as a primary category of need. Recent research has suggested that up to 95 % of children with autistic spectrum disorder have sensory processing disorder.</p> <p>We have observed that sensory equipment and resources such as mattresses, lap pads, tunnels, weighted jackets, and additional proprioceptor equipment can be effective at providing support for our pupils with sensory needs.</p> <p><a href="#">What is Autistic Spectrum Disorder? - Julia Dyer Sensory Integration Training and Consultancy, North West England UK</a></p> <p>Summer Term Update Resources purchased and training being rolled out Swing in place</p>	<p>3,4,5</p>

<p>Linked to School Improvement Target: <b><i>Learning outside the classroom enhances cultural capital, supporting student's wellbeing and independence.</i></b></p> <p>Cultural trips and in-school arts activities, including drama/dance. (Indicative amount £2,000)</p> <p>Weekly release time for teacher to develop LOTC resources and deliver training (£6,500)</p> <p>Attend Training to enhance knowledge base (£250)</p> <p>HLTA support for outreach visits (1.5 day – see previous section)</p>	<p>In school audits, and parent and pupil feedback has identified that pupils have had limited opportunities to learn outside the classroom</p> <p>By planning for cultural capital within the curriculum, schools can help those students who may otherwise not have high cultural capital and, in doing so, help reduce social inequalities (Quigley, 2022). <a href="#">Cultural Capital - Blog : Chris Quigley Education, Training Courses and Educational Resources for Schools and Teachers</a></p> <p>Many of our pupils experience a cultural-deficit due to their complex needs; many attractions and environments are not set up to provide quality experiences for pupils with complex cognitive or physical disabilities which excludes them from this environment. Those eligible for the PPG are doubly-disadvantaged from accessing these environments due to the cost of travelling and paying to enter many of them.</p> <p>Opportunities are maximised to broaden life experiences and social interaction outside of the school building and home through access to local community facilities.</p> <p>Summer Term Update</p> <p>We have planned to achieve the LOTC quality mark but this was put on hold over the last couple of years. We have a teacher who has trained in forest schools who would lead on this project as part of her NPQSL.</p> <p>Through development of the school's LoTC offer the grounds around the school building will be developed to include fully accessible spaces. Learners will be enabled to regularly explore and learn in a naturalistic environment as part of timetabled lessons.</p> <p>Summer update : Due to delays in building progression etc we are putting this on hold until next year. Based on feedback from class teams in relation to Communication and Interaction referrals the money will be allocated for AAC – see section below</p> <p>Providing training for new welfare staff to support play at lunchtime</p> <p>A HLTA is will be responsible for organising and leading community outreach outings. Pupils will be eligible for subsidised excursions to enhance their cultural capital offer across the curriculum.</p> <p>Summer Term Update To develop links with Shadsworth Hub to access resources and extended options for students – will form part of LOTC plan</p>	<p>4, 7</p>
---	---	-------------

<p>Targeted breakfast club Daily snacks and milk. (£500)</p>	<p>The EEF found that a funded, accessible breakfast club or intervention had, on average a positive impact on pupil progress, particularly in Key Stage 1 (+2 months) (EEF, 2017).</p> <p>Pupils will be able to access a funded breakfast provision where they can use their communication skills to interact with peers and adults to request their breakfast choices and take back to class.</p> <p>Before a student's cognitive needs can be met, they must first fulfil their basic physiological needs. For example, a tired and hungry student will find it difficult to focus on learning. Students need to feel emotionally and physically safe and accepted within the classroom to progress and reach their full potential. (Maslow, 1971)</p> <p>Summer Term Update</p>	<p>1,2,6</p>
<p>Access to residential trips ( Hathershall Lodge) (Subject to development and take up). £500</p>	<p>Residential support pupils to experience more independence, promoting outcomes towards preparation for adulthood including communication, independence and social awareness. Eligible pupils will be entitled to subsidised access to relevant residential visits in order to ensure a parity of access to these learning experiences.</p> <p><a href="https://www.educationendowmentfoundation.org.uk">Extending school time   EEF (educationendowmentfoundation.org.uk)</a></p> <p>Summer Term Update ; Experiences planned for : Calvert Trust/ Hathersall Lodge</p>	<p>1,6</p>
<p>Specific small group interventions via HLTA school counsellor and SI (see previous section)</p> <p>Mental Health Support Practitioner</p>	<p>We have developed an inhouse referral system to identify students requiring enhance level of input</p> <p>This is from a range of data source CPOMS, IRIS, Pupil progress meetings, parental feedback</p> <p>From this we will deliver a tiered approach to interventions – initially using in house expertise:</p> <p>Summer Term Update</p> <p>The practitioner has been promoted and is no longer working in school Moving forwards we will look at ways to engage the team</p> <p>The intervention tracker is identifying students requiring additional support – focus currently on SI</p>	<p>1, 7</p>

**Total budgeted cost: £ 85,246**

## Further information

### Planning, implementation, and evaluation

In planning this year's pupil premium strategy we aligned the priority focuses with our ongoing school improvement and evaluation cycle.

This is also a response to the changing needs of the school population and the impact of a number of new staff.

This is as a result of the realignment of school into one school rather than Autism and Send. This has resulted in a more inclusive approach. *With this realignment* the need to support staff and pupils to manage this change is vital.

We have put in place stronger expectations around areas of effective practice with a specific focus on engagement and adaptive teaching.

We have also put a sharp focus on supporting teachers to develop their professional practice and train in specialist areas, allowing them to develop expertise and share them with other staff – creating lead learning team.

The main priorities emerging were as follows;

- Upskilling new staff via enhanced training and induction programme – linked to SDP priority:

***A Comprehensive programme of CPD is offered, linked to career stage and priority training needs adopting the principles of ADULT learning to maximise impact on performance***

***The above programme responds to meet the need of our learners over time via effective training needs and skills gap analysis***

- Delivering high quality adaptive teaching
- Developing a whole school total communication approach
- Ensuring the new configuration offers the appropriate environment for the new groupings

The pandemic has also given us deeper insights into family life for those from disadvantaged backgrounds and we have been able to forge stronger relationships with parents/guardians as a result. As a result we have also aligned aspects of our focus with the local area context improvement plan which reflects the particular socio – economic aspects of the school.

This has also led to a focus on

- Pupil attendance and engagement
- Pupil behaviour linked to attachment and trauma-based approach
- Supporting opportunities to develop cultural capital

We have used the EEF's [implementation guidance](#) to set out our plans and put in place a robust evaluation framework. This will help us to make adjustments and quality improvements to secure better outcomes for pupils over time.
